

# Daily Schedule Icons

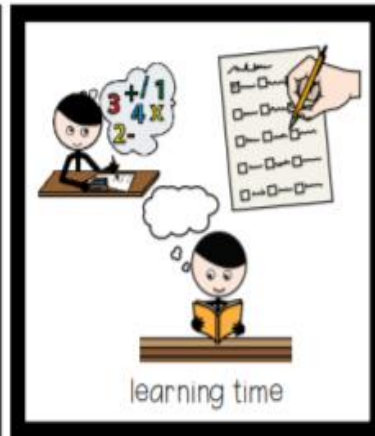

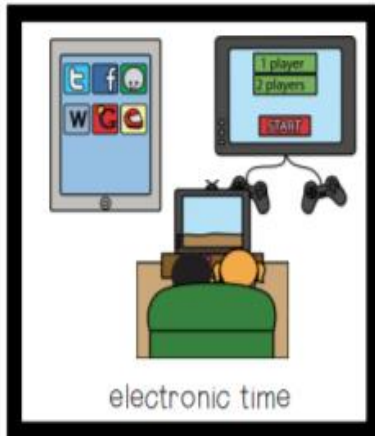

Hello Parents,

I hope you all are healthy and safe. Here are daily schedule Icons you can print out to create a daily schedule for your child/children. You can get creative how you display them or use whatever you have access to in your home. Some examples you can do are: cut them out and paste them in the order you desire; cut them out and place Velcro or magnets on them or use clothespins and string to display. Please let me know if there is anything else you need, and I will be happy to help.

Kindly,

Mrs. Attanasio
